# ADARSH PREET

## Front-end Developer

## Education

(2011 -2015)

PUNJAB TECHNICAL UNIVERSITY

Bachelor of information and technology

## Professional Experience

(2015 -Present)

**Vyzion Innovations | 2015 – Present**

- Worked at Vyzion Innovations for 10 years, building mobile apps and websites across different industries.
- Developed and launched apps for rental taxi, ride sharing, eCommerce, food delivery, social media, and matrimonial/dating platforms.
- Built mobile apps using Flutter and Swift, ensuring smooth and responsive user experiences on both iOS and Android.
- Created clean, user-friendly designs and layouts that work well on all screen sizes.
- Integrated features like live tracking, chat, payments, push notifications, and user profiles.
- Used Firebase, REST APIs, and third-party services to add backend functionality.
- Managed app updates and deployments on the App Store and Google Play.
- Collaborated closely with designers, backend developers, and clients to deliver what users really need.
- Used tools like Git, JIRA, Figma, and VS Code/Xcode daily.
- Helped and mentored junior developers, reviewed code, and shared knowledge with the team.
- Focused on writing clean, maintainable code and delivering projects on time.
